

We are proud to introduce our New Product "The Spitfire"! We have designed this Fire Pit/Spit for the traveller and adventurer at heart. After much design consideration and testing, we have produced a Fire Pit that lives up to H&S Metalcraft name and is a quality product.

The BBQ plate is included, and it is made to fit the GRT2 Gasmate Spit (not included).

Each Fire Pit comes with a storage bag for travelling or to store away when not in use at home.

Some major points are:

- Folds in each piece of the Fire Pit to ensure strength and minimal warping
- Holes in feet to secure to ground ensuring that it cannot be accidentally knocked over
- Internal false grill to aid with drawing of the fire in all conditions
- 2 mm components to save buying multiple Fire Pits of the years.
- Works extremely well with heat beads for areas where open flame is prohibited
- Assembled size 53 cm wide x 42 cm high x 40cm wide, Weighs approx. 15 kg

\$229 plus shipping if required.
